### **DETAILED ACTION**

1. The following is a non-final office action upon examination of application number 10731418. Claims 1, 6, 8, 10, 13, 15-18, 20, 24, 26 and 27 are amended. Claims 1, 2, 6-27 are pending and have been examined on the merits discussed below.

### ***Response to Arguments***

2. Applicant's arguments, with respect to previous rejections under 35 USC 103 have been fully considered and are persuasive. The rejections under 35 USC 103 of claims 1, 2, 6-27 have been withdrawn.

### ***Drawings***

3. The drawings are objected to because the text of figures 8-13 is illegible in most places. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet"

pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

4. Claim 1 objected to because of the following informalities: in line 9 of claim 1, it recites "the organization". This should be amended to recite "an organization".
5. Claims 10, 18 and 27 objected to because of the following informalities: As written, claims 10, 18 and 27 are not clear. Lines 7-8 and lines 9-10 of claim 10 should be switched. The same should be applied to lines 8-9 and lines 10-11 of claims 18 and 27. This change clarifies the claim language. Appropriate correction is required.

By making this change, the claims clearly state how forecasted revenue is generated and then that the expected revenue is generated based on the adjustment of the forecasted revenue.

### ***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
7. Claims 6-8, 14, 16, 17, 24, 25 and 26 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 6-8, 16, 17, 24, 25 and 26 recites the limitation "the hierarchy" in several instances. There is insufficient antecedent basis for this limitation in the claim. Examiner

suggests amending the claims to recite "the reporting hierarchy" as this will clarify the claim language.

Claim 14 recites the limitation "in response to the notifying". There is insufficient antecedent basis for this limitation in the claim. Examiner suggests amendment the claim to recite, "in response to the alert."

Examiner note: in claim 1, to clarify, Examiner suggests:

amending line 8 to read, "receiving specified roles of participants in a reporting hierarchy"

amending line 11 to read, "the information indicates the member is assigned one of the specified roles in the reporting hierarchy"
